

Tests:

Sample A: NL-Hardoil from Asuso
+ ceramic & graphene coating 9H⁺ (chinese supplier)

Sample B: Hardoil No.123 from Auro
+ Hardwaxoil No.1101 from Osmo

Sample C: Hardoil No.123 from Auro
+ Hardwaxoil No.1101 from Osmo
+ carnabau wax

conclusion:

a) Test with dry paper towel
→ forget it – no chance

→ b) Test with moistured paper towel
→ a lot of the stains (water, coffee, tee, wine) will disappear

→ c) Test with liquid wax cleaner No.3029 colorless from Osmo – everything -
except the sharpie – will disappear

→ d) you can get rid of the sharpie with steelwool (finest grit)

→ e) beyond that there rests only to sand down completely the surface and to rebuild it
